It was a magic touch on behalf of the angel of history or a simple miracle, that a rare photographic document like the "Auschwitz Album" survived, and was donated to the photo archives of Yad Vashem.

This Album is unique: there is not a similar album of its kind in the whole world. It documents, in about two hundred photos from every direction and from every angle, the process of arrival, the enlisting, the selection, the confiscation of property and the preparation for the physical liquidation of a Jewish transport. This Transport came from the area of Carpatho-Ruthenia, a region annexed in 1939 to Hungary from Czechoslovakia, and arrived at the ramp of the extermination camp Auschwitz-Birkenau on May 1944. The most surprising and striking fact is that the Album fell into the hands of a survivor of that same death transport. Lili Jacob opened an album and suddenly recognized the people of her community, who arrived with her to the platform of Birkenau: her rabbi, her numerous family relatives and... herself.

Yad Vashem and the Auschwitz-Birkenau State Museum present you with this Deluxe Edition that includes one picture that had been missing for years and additional information on the deportees' identity and their tragic fate.

The present volume is a collection of articles based on the papers delivered at an international conference that took place in August 1999, in Warsaw. Most articles included in this volume tackle the disturbing question: how did people react when their neighbors were made outcasts, humiliated, deported and later vanished without a trace? Featured in the volume are selected studies of both established scholars and young researchers who attempt to clarify and analyze the attitudes of clerical institutions, official institutions, and resistance organizations.

Caught in the crossfire of Nazi oppression, two people triumph in this story of courage, luck and passion during one of the darkest moments of the 20th Century. After surviving a perilous escape from Auschwitz's infamous death camps, William Herskovic miraculously made his way across Nazi-occupied Europe. Becoming one of the first recorded eyewitnesses of Hitler's atrocities, he alerted the underground, and was eventually credited with the rescue of hundreds, perhaps thousands, bound for the gas chambers.

Mireille, still merely a teen, managed to hide her parents in attics and rural homes, risking her life daily to venture out for the food to keep them alive. The Herskovic family survived the perils of the Holocaust with their souls and spirits soaring.
